You may also purchase Optional AD&D insurance from \$20,000 to \$2,500,000 (but not more than 10 times your annual base pay) in \$10,000 increments.

EVIDENCE OF INSURABILITY (EOI)

Please review this section to see if you must furnish proof of good health to the insurance company. If proof of good health is required, you must complete an Evidence of Insurability (EOI) form. You must submit proof of good health for yourself under the following circumstances:

- If you are electing Optional Life insurance for the first time.
- If you increase Optional Life insurance by more than an additional one (1) times your annual base pay
- If the elected coverage exceeds the \$350,000 guarantee issue amount.

(Prudential must approve your EOI application before the coverage begins)

CHANGING ELECTIONS DURING THE YEAR

If you do not enroll yourself or your dependents by the 45th day of employment, you may enroll within 30 days of a Qualified Life Status Change or during the next Open Enrollment period. Each year during the Open Enrollment period you may elect or make changes to your coverage.

To declare a Qualified Life Status change, you are required to submit to the Nabors Benefits Department a written request within 30 days of the qualifying event. The change in coverage must be directly related to the change in family status. Proof of relationship and documentation is required for all dependents.

Qualified Life Status Changes: Marriage, divorce, birth or adoption of a child, death, loss or gain of coverage under governmental or educational program, change in employment status for you, spouse or dependent, or a significant change in a covered spouse's benefit plan.

If your spouse is eligible for coverage through their employer, they are not eligible for coverage on the Nabors Plan.

BUSINESS TRAVEL ACCIDENT COVERAGE

Nabors provides Business Travel Accident coverage at no cost to you. The covered accident must take place while traveling on business and in the course of business. The principal sum is \$250,000.

- Multiply that amount by 12 to get yearly amount
- Divide that amount by 26 to get your cost per pay period

(Example based on employee only coverage)
 $\$30,000 / \$1,000 = \$30.00$
 $\$30.00 \times \$0.08 = \$2.10$
 $(\$2.10 \times 12) / 26 = \0.97

How to calculate your cost per pay period:

- Divide annual base pay by \$1,000
- Multiply by the rate based on your age
- Multiply that amount by 12 to get yearly amount
- Divide that amount by 26 to get your cost per pay period

(Example based on age 40 through 44 rate)
 $\$30,000 / \$1,000 = \$30.00$
 $\$30.00 \times \$0.17 = \$5.10$
